

DETERGENTE IGIENIZZANTE PAVIMENTI UNIVERSALE

Concentrated cleaner for the daily maintenance of all floors

DESCRIPTION:

DETERGENTE IGIENIZZANTE PAVIMENTI UNIVERSALE is a concentrated water-based detergent to be used to clean and sanitize all washable surfaces. Its action guarantees maximum hygiene and deep cleaning, without damaging the surfaces and without leaving superficial films, residues and streaks.

BENEFITS:

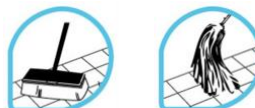

- Excellent cleaning power
- Versatile
- Concentrated formula

SUITABLE FOR:

Marble, Travertine, Porcelain stoneware, Ceramic, Terracotta, Synthetic floors

COVERAGE: 900 m²/l

APPLICATION TOOLS:

APPLICATION:

The product should be diluted 2 or 3 capfuls in 5 liters of water, then wash the parquet floor using traditional methods. If you use the product at the recommended concentrations it is absolutely not necessary to rinse.

MAINTENANCE:

Use DETERGENTE IGIENIZZANTE PAVIMENTI UNIVERSALE for the daily maintenance of your floors

PRECAUTIONS:

Do not use too much concentrate with the risk of creating a deposit
